

CL 12 (7 – 11 W)

DC Compact Fluorescent Lamps

- 12 V DC Operation
- Extremely high illumination efficacy
- Extremely high number of switching cycles
- Over-Temperature Protection (OTP)
- Standard socket available

Phocos' CFL lamps provide very high illumination levels at low power consumption. This high quality 12 V DC lamp can be used directly in 12 V battery or solar systems. The life span of the lamp is more than 8,000 hours. The new version of CFL lamps is now regulated by a DC-preheating circuit which makes an extremely high number of switching cycles possible (IEC925).

Furthermore the lamps are equipped with an over-

temperature protection (OTP) which causes the lamps to automatically switch off prior to overheating (especially when operated at too extreme environmental conditions) and therefore prevents damage to the lamp. Thus, the product life span is significantly increased. It is an excellent choice for any illumination purpose which requires more than 100 lumens.

Type	CL 1207C	CL 1211C
	CL 1207W	CL 1211W
Nominal voltage	12.5 V	
Operating voltage	11 – 15 V	
Power consumption	7 W	11 W
Operating current	560 mA	900 mA
Light output	350 lm	630 lm (C)
		670 lm (W)
Light color	6,400 K (C)	
	2,700 K (W)	
Ambient temperature	-10 to +50 °C	-10 to +40 °C
Socket	E27 (Edison)
